

Truck Scales

Description:

Above ground or pit-type truck scales to weigh all inbound and outbound trucks. Larger capacity scales available for weighing heavier in-plant-off-road trucks.

Options:

- Special scales for existing foundations
- Electronic conversion kits for mechanical scales
- Portable scales
- Instrumentation from simple weighing to control systems
- Axle weighing
- Truck on-board weighing
- Truck ID system

Specifications:

- Sizes from 10' x 10' up to 116' x 12'
- Capacities up to 300,000 lbs.
- High-strength, all-welded steel sandwich constructed deck
- Link suspension - no check rods required
- Rust protection, every surface is coated with heavy metal-free, rust inhibiting, epoxy primer and a final coat of high-grade enamel
- Removeable plated for top side maintenance
- Digital weight instrument

The logo for Techweigh, featuring the word "TECHWEIGH" in a bold, italicized, sans-serif font. The "W" is stylized with a blue and orange gradient. The logo is set against a black background with a white and blue swoosh underneath.
